

Parent Participation

We encourage parents to engage in the therapeutic process with their children and the OTs. Most often this is accomplished by parent- OT check ins at the beginning and end of each session. Parents are also encouraged to sit in on the full session, if parent and therapist believe this to be most beneficial.

Please note that sessions run either 25 or 50 minutes in length. If parents must leave the clinic for a short errand, please ensure you return to the clinic within this time frame. This is the only way to ensure time for check ins at the end of OT sessions, as other families are scheduled immediately after your child completes his/ her visit.
