

Name of activity: Magic Milk

<https://littlebinsforlittlehands.com/magic-milk-a-classic-science-experiment-for-kids/>

Materials

- Full fat milk
- Food coloring
 - Glitter (optional)
- Dawn dish soap
- Cotton swabs

Instructions

1. Start by pouring your milk into a baking dish or another flat bottom surface. You don't need a lot of milk – just cover the bottom and then some.
2. Next you want to fill the top of the milk with drops of color! Go ahead and mix them all up. Go ahead and throw some glitter in there too, but that's optional.
3. Now pour a bit of your dish soap into a bowl, touch your cotton swab tip to the dish soap to coat it. Bring it over to your milk dish and gently touch the surface of the milk with the soapy cotton swab!
4. Watch what happens!
